

Ice cream mix

Iced Cappuccino Slushies

Uelzena
Ingredients

Whether fat-free water ice mix for slushies or refreshing milk-based Iced Cappuccino - refreshing water ice crystals provide the cool indulgence in these ice drinks. Liquid ready mix for easy production of these popular trend drinks, ultra-high heated and homogenized. On request, we can develop other flavors or manufacture this product for you with your own branding.

Use

- › Production of refreshing water-ice drinks and milk-based iced cappuccino by using a standard slush machine
- › Ideal for outdoor and system catering

Product benefits

- › Refreshing taste and intense colors
- › Water ice base free of preservatives and additives that must be declared on menus
- › Ready-to-use liquid mix for easy handling: open the packaging, fill-in the mixture - ready!
- › Long shelf life even when stored unrefrigerated
- › Space-saving storage in the warehouse thanks to stackable and stable bag-in-box packaging
- › Excellent processing properties during preparation in all types of slush machines.
