

Ice cream mix

Soft serve ice cream

Uelzena
Ingredients

Made on a basis of fresh milk and cream (100% cow's milk), ultra-high heated and homogenized. Our liquid ice cream mix for the production of soft serve ice cream convinces with a full-bodied creamy taste. The fat content can be adjusted to suit individual customer requirements. Available in the popular standard flavors vanilla, chocolate and strawberry. On request, we will be happy to develop your own individual recipe and flavor or realize our standard recipes under your own branding.

Use

- › Production of fresh, creamy soft serve ice cream using commercially available soft serve ice cream machines
- › Easy to enhance with icings, sprinkles, sauces
- › Ideal for leisure, outdoor and system gastronomy

Product benefits

- › Full-bodied milky and creamy taste
- › High whipping volume
- › Excellent processing properties in all commercially available soft serve ice cream machines
- › High-quality milk fat base without palm fat
- › Free of preservatives and additives that have to be declared on menus
- › Ready-to-use liquid ice mix for easy handling: open the packaging, pour content into the ice machine - ready!
- › Long shelf life even when stored unrefrigerated
- › Space-saving storage in the warehouse thanks to stackable and stable bag-in-box packaging
