

Milk products

# Customized milk and milk fat products

Supplementing our standard product range, we also develop customized and tailor-made dairy products as well as pre-mixes and compounds from milk fat for you. For this, we e.g. use sweetened condensed milk or cream. The addition of other ingredients is possible. Texture, dry matter, fat level etc. can be adjusted to your specifications. Various stabilizers are available.

## Use

- › Base for bread spreads
- › Desserts
- › Baked goods
- › Ice cream
- › Delicatessen
- › Ready meals
- › Frozen meals
- › Soups and sauces
- › Confectionery

## Product benefits

- › Customer-specific adjustment of sensory and physical parameters
- › Simplifies the production process because the products are optimally adjusted to your application technology
- › Addition of other ingredients right into the milk fat blend facilitates their use and with that the production process
